SCS Interactive's Attraction Debuts at the Largest Indoor Waterpark in Montana

The Reef Opens it Doors to the Public on August 22, 2008

Denver, Colo. (Aug 28, 2008) SCS Interactive collaborated with the newly opened The Reef Indoor Waterpark at Wingate™ by Wyndham to create a dynamic waterplay structure. The newly opened waterpark, which features the SCS attraction, is sure to help the hotel attract guests and increase the length of their stay. The park opened on August 22 to rave reviews.

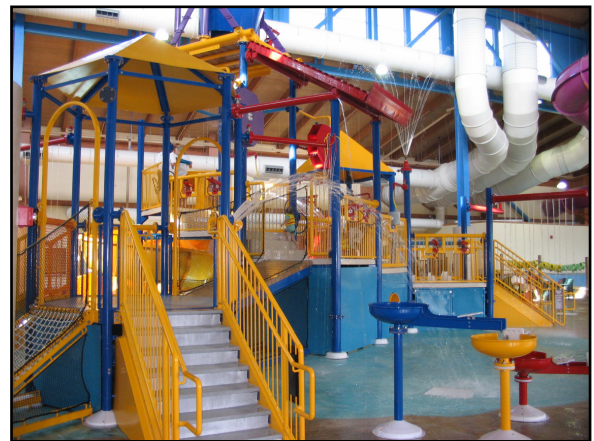

Wingate™ by Wyndham in Billings, MT, is the first hotel in the area to add an indoor waterpark and SCS was delighted to be part of The Reef Indoor Waterpark's development.

SCS installed *Ripp's Play House* as the central interactive attraction at The Reef Indoor Waterpark. This attraction is a Model 255 and is featured in the SCS StormSeries™. The StormSeries™ is unique in that it uses integrated triangular decks and HexDek™ shapes, this allows for angled connections. It also features modular interactives on the handrails which makes installation easier and giving the park the ability to refresh the structure with new interactives anytime.

"We were so happy to work with SCS Interactive to create a memorable waterplay structure for The Reef, the install was so easy. *Ripp's Play House* is sure to draw in the crowds. Best of all it appeals to all ages so the entire family can enjoy themselves as they climb in and around the structure." stated Sean Nichols, general manager of The Reef Indoor Waterpark.

Guests are able to explore the more than eight climbable decks and soak other guests with the 33 different interactives; such as hydro-blasters, sprayers and buckets, as they make their way around the play structure or down one of the two slides. This attraction features approximately 3800 square feet of soaking fun, interaction and adventure.

"It is exciting for SCS Interactive to have one of its unique StormSeries™ structures in the largest indoor waterpark in Montana. This is the first mid-size StormSeries™ structure that SCS has installed and it is a crowd pleaser," stated Steve Wagner, vice president of sales and marketing for SCS Interactive. "The waterplay structure will truly be a focal attraction within

the park and will bring guests back to the Wingate™ by Wyndham hotel time and time again."

About SCS Interactive

SCS Interactive is the source of great waterparks. SCS has revolutionized the waterplay industry as the originator of the multi-level interactive treehouse concept, the creator of the giant tipping bucket seen at amusement and waterparks around the world, and the developer of the world's first wet and dry water coaster known as SplashTrack™. Some of the biggest resorts, theme and waterparks all over the globe showcase SCS Interactive structures as signature attractions. Additional information about SCS Interactive can be found on the website at www.scsinteractive.com.

About The Reef Indoor Waterpark

The Reef is Montana's largest indoor waterpark. This waterpark is located in the Wingate™ by Wyndham hotel in Billings, MT just off of interstate 90. This hotel is designed in a timeless, attractive, classic, and distinctive prototypical design. The hotel is proud to offer, aside from its new waterpark, a host of valuable amenities at no extra cost to the guest. For more information visit the website at <http://www.wingatebillings.com>.
